- helping others?
- a mystery?
- thinking quick on your feet?
- being a caregiver?

## Possible Career Paths

**Acute Care Nurses** Provide advanced nursing care for patients with acute conditions such as heart attacks, respiratory distress syndrome, or shock.

**Clinical Nurse Specialists** Plan, direct, or coordinate the daily patient care activities in a clinical practice.

**Home Health Aides** Provide routine

individualized healthcare such as changing bandages and dressing wounds, and applying topical medications to the elderly, convalescents, or persons with disabilities at the patient's home or in a care facility.

**Nursing Assistants** Provide basic patient care under direction of nursing staff. Perform duties such as feed, bathe, dress, groom, or move patients, or change linens.

**Nurse Midwives** Diagnose and coordinate all aspects of the birthing process, either independently or as part of a healthcare team.

**Nurse Practitioners** Diagnose and treat acute, episodic, or chronic illness, independently or as part of a healthcare team.

**Psychiatric Aides** Assist mentally impaired or emotionally disturbed patients, working under direction of nursing and medical staff.

**Registered Nurses** Assess patient health problems and needs, develop and implement nursing care plans, and maintain medical records.

## Jobs in the Military

**Medical Care Technicians** help give patients the care and treatment required to help them recover from illness or injury.

**Medical Emergency Technicians** When a physician is not available, medical emergency technicians provide basic and emergency medical treatment.

**Registered Nurses** direct nursing teams and give patients individual care to help them recover from illness or injury.
